PROFESSIONAL SUMMARY

Computer Systems Engineer with nearly 4 years of professional experience in data quality, AI data pipelines, and IT operations. Spent three years at Scale AI validating multimodal datasets, writing Python and SQL validation scripts, and working with machine-learning teams; promoted after sustaining a quality rate above 80%. Currently the sole IT owner for a 40-user company, where Excel-based ETL, tracking, and pricing-analysis tools and process documentation are part of the daily work. Completed the Google Data Analytics Professional Certificate and Oracle Next Education Data Science. Seeking Data Analyst and Data Science roles in Mexico or remote.

TECHNICAL SKILLS

Data Analysis & Quality: Data validation, data cleaning, ETL, QA audits, root-cause analysis, error reporting, multimodal data labeling

Programming & Query Languages: Python, SQL, R, Java, JavaScript, HTML/CSS

Analytics & BI: Excel (ETL, trackers, pricing analysis, reporting), Tableau, Machine Learning fundamentals

Databases: MySQL, PostgreSQL

Business Systems & IT: Google Workspace administration, SharePoint, Odoo ERP, user access management, IT asset inventory

Tools & Process: JIRA, SOP documentation, process standardization

Networking & Systems: Cisco CCNA v7 (coursework), Packet Tracer, Linux fundamentals

R, Tableau, MySQL, PostgreSQL, and machine learning were applied through Google Data Analytics and Oracle Next Education coursework.

PROFESSIONAL EXPERIENCE

IT & Operations Analyst
Mar 2026 – Present

MTM Soluciones

- Sole IT owner for ~40 users and ~60 devices: administer Google Workspace accounts and access, and maintain the IT asset inventory.
- Designed and administer the company SharePoint site end to end (information architecture, document libraries, access groups, lists, calendars, homepage), used by all departments.
- Built Excel trackers, analyses, templates, and product-pricing models (~145 hours), automating data cleaning and reporting through ETL and table restructuring to support decision-making.
- Authored 4 Standard Operating Procedures (SOPs) to standardize recurring operations.
- Support Odoo v17 ERP: create users, configure the outgoing mail server through Google Workspace, and hold working sessions with teams to map which modules are used and how. Also support online sales and Meta Business operations.

Data Analytics & Data Science Training
Feb 2025 – Mar 2026

Self-directed professional development

- Completed the Google Data Analytics Professional Certificate and the Oracle Next Education Data Science program, covering SQL, R, Tableau, MySQL, PostgreSQL, and machine learning fundamentals.

AI Quality Assurance Coder
Mar 2023 – Feb 2025

Scale AI (Independent Contractor)

- Developed Python and SQL validation scripts, queries, and tools to check data integrity in AI pipelines (also Java, JavaScript, and HTML).
- Handled data ingestion and flow through AI pipelines, safeguarding data integrity and availability for large-scale model processing.
- Partnered with machine-learning teams to define data-quality requirements and deliver datasets used in model development.
- Promoted to this role after sustaining a quality rate above 80%.

Quality Assurance Specialist Oct 2021 – Mar 2023
Scale AI (Independent Contractor)

- Labeled and verified multimodal machine-learning data (text, images, video, 3D) against strict project standards, maintaining a quality rate above 80%.
- Ran post-process audits and wrote detailed error reports that drove continuous process improvements.
- Identified root causes of low-quality output and delivered actionable feedback that improved final deliverables.

EDUCATION

B.Sc. in Computer Systems Engineering (degree obtained) Jan 2019 – Aug 2022
Universidad de Cuautitlán Izcalli, State of Mexico

CERTIFICATIONS

- **Google Data Analytics Professional Certificate** – Google
- **Data Science** – Oracle Next Education
- **Elements of AI** – University of Helsinki
- **CCNA v7** (courses and final exam completed) – Cisco Networking Academy
- **Also completed:** Cybersecurity Essentials, NDG Linux Essentials, Python Essentials I – Cisco Networking Academy

LANGUAGES

Spanish: Native | English: Upper-intermediate (B2)
